

Hyattsville, Maryland

BACKGROUND

The overall goal of the Maryland Smart Energy Communities (MSEC) program is to have local governments adopt energy policies and commit to them for the long term, leading to sustained energy savings and additional opportunities for renewable energy development. Any Maryland local government (counties and incorporated towns, cities) can join MSEC.

Grant Recipient
City of Hyattsville

Location
Hyattsville, MD

Grant Amount
\$62,280

Issue Date
FY2017

“The Maryland Energy Administration's Smart Energy Communities (MSEC) grant helped our police department become cleaner and greener by affording us the opportunity to replace some of our gasoline powered patrol fleet with fully electric police vehicles. These zero emission vehicles benefit our community by ensuring a healthier environment and reducing overall operational costs.”

- Sgt. Richard Hartnett,
Hyattsville City Police
Department, Electric Vehicles
Project Manager

PROJECT HIGHLIGHTS

The City of Hyattsville has been a Maryland Smart Energy Community since Fiscal Year 2013, adopting the energy efficiency and petroleum reduction goals.

In FY2017 Hyattsville received an MSEC award for one all-electric 2017 Bolt and one all-electric Zero Motorcycle. Both of these both used as marked police vehicles.
